2024 Fall Career Fair Participants

ACCO Engineered Systems

Booth #57

Corporate Headquarters
888 E Walnut Street
Pasadena, CA 91101
www.accoes.com

- Taylor Deschene
- Ryan Marr-Wyatt
- Kenny Shin

ACCO Engineered Systems is the largest mechanical contractor in the Western United States and one of the largest in the United States, with more than 4,500 employees tackling the largest and most complex projects. Headquartered in Pasadena, CA, ACCO is a 100% employee-owned company with revenue surpassing \$1.5 billion. Through an engineering-oriented approach that is the foundation for outstanding mechanical systems, and with our skilled union labor, ACCO thrives on transforming innovative ideas into practical and reliable systems to the construction and existing facility markets. Established in 1934, over time ACCO has developed a reputation for completing its projects on time, on budget and SAFELY. This is because of our people, who are dedicated, committed, and continuously developing to remain atop the industry.

ACCO's mission is to provide our customers with the most cost-effective mechanical systems for their facilities through the integration knowledge of engineering, construction, and service.

Join us on our quest to be the best in the business!

Air Treatment Corporation

Booth #1

320 Harbor Bay Pkwy Suite 150
Alameda, CA 94502
www.airtreatment.com

- Ken Mozek, Refrigeration Specialist
925-989-2892, kmozek@airtreatment.com
- Jeff Kuitert

Recruiter Identified Major(s): ME

Air Treatment Corporation is the leading HVAC & R manufacturer's representative serving California, Nevada, Hawaii, Oregon and Guam since 1982.

For 40 years, ATC has partnered with first-rate equipment manufacturers to deliver expert, sustainability-driven equipment, factory-certified service, and end-to-end support within our wide distribution network.

We serve numerous markets, including cold storage and food processing, data centers, higher education, and sports areas. Our divisions include HVAC equipment, refrigeration, OEM service, and parts.

What makes us different? We've shaped how businesses, contractors, and industry professionals work with HVAC & R manufacturer representatives. Our team of experts includes sales engineers, inside support teams, and certified technicians that use their industry knowledge and tools to be your reliable specialists in energy and water-saving solutions.

We connect manufacturers, customers, contractors, builders, and designers through an in-depth understanding of HVAC & R equipment, personalized customer service, and relationship building that delivers long-term business results.

Alameda County Sheriff's Office**Booth #3**

3 Park Place, 3rd Floor

Dublin, CA 94568

Recruiter Identified Major(s): ME, FET

Calpine Corporation is America's largest generator of electricity from natural gas and geothermal resources with operations in competitive power markets. Its fleet of 77 power plants in operation represents over 27,000 megawatts of generation capacity. Through wholesale power operations and its retail businesses, Calpine serves customers in 22 states and Canada. Its clean, efficient, modern and flexible fleet uses advanced technologies to generate power in a low-carbon and environmentally responsible manner.

The company was established on the premise that a strong commitment to the environment is inextricably linked to excellence in power generation and corporate responsibility. Since its founding in 1984, Calpine has led the power industry in its unwavering commitment to environmental stewardship. In addition, its renewable geothermal plants use steam generated deep below the earth's surface to produce clean, renewable electricity.

Recognized Worldwide for Diverse and Dynamic Marine Transportation Solutions

Founded as Edison Chouest Boat Rental in Galliano, Louisiana, in 1960, the Edison Chouest Offshore companies (ECO) are recognized today as the most diverse and dynamic marine transportation solution providers in the world. ECO operates a growing fleet of well over 200 vessels, ranging from 87 to over 525 feet in length, serving an expanding global customer base.

Staying on the forefront of new technologies is an integral part of the Chouest business plan, as evidenced by recent advances in the areas of subsea support, integrated bridge systems and global communications.

The ability to design, build, own and operate diverse, high-capacity and technologically superior vessels has made ECO an unrivaled leader in the maritime industry.

2023 Headlines for our Fortune 500 Company:

- Fortune - World's Most Admired Companies - #3 in Wholesalers: Diversified
- Industrial Distribution Magazine - Big 50 - #5
- Surpassed \$1B in International Sales
- Named presenting sponsor for 2023 MLR Championship Series
- Fastenal & NHL announce multiyear global partnership

Over 3,000 locations with headquarters in Winona, Minnesota, United States

What We Do:

We are many things to many different customers: an expert supply chain consultant, a logistics company, an inventory solutions technology provider, and more generally, a distributor of wide-ranging industrial, construction and safety products. These aspects of our service share a common foundation: great people, close to our customers. Our service model centers on over 3,200 in-market locations (a combination of public branches and customer-specific onsites), each providing custom inventory and a dedicated sales & supply chain team to support local customers' business. These locations are supported by our global distribution network, a closely-aligned supplier network, robust sourcing, quality and manufacturing resources, and multiple teams of subject matter experts and support personnel – all working toward Fastenal's common goal of Growth Through Customer Service.

Who We Are:

As we've expanded across the world into 25 countries, we've retained a core belief in our 20,000+ people and their ability to accomplish remarkable things - when given the opportunity. From this philosophy stems an entrepreneurial culture that challenges every employee to run their own business, create their own success, and advance to become company leaders. We are consistently growing, searching for B2B industrial sales and supply chain operations roles at our branches globally. Additionally, our headquarters and other select locations hire for various teams to support business functions related to Accounting, Finance, Information Technology, Human Resources, Marketing, Purchasing, Product Development, International Operations, Quality, Engineering, Sales, Warehouse, Transportation, and Manufacturing.

Military Sealift Command**Booth #10 & 11**

CIVMAR Support Center
9276 3rd Avenue, Bldg LP-26
Norfolk, VA 23511-2419
www.sealiftcommand.com

- Daniel Melena, Recruiter
danielm@sealiftcommand.com

Recruiter Identified Major(s): IBL, MT, FET, ME

The U.S. Navy's Military Sealift Command is the premier provider of ocean transportation to the Department of Defense. The Command operates approximately 125 civilian-crewed ships that replenish U.S. Navy ships, conduct specialized missions, strategically preposition combat cargo at sea around the world and move military cargo and supplies used by deployed U.S. forces and coalition partners.

While we do play a critical role in support of our nation's defense, our employees are not active duty members of the military. MSC civil service mariners (CIVMARs), the largest segment of our global workforce, are federal civil service employees.

All CIVMARs are employed by the Navy to serve MSC onboard naval auxiliaries and hybrid-manned warships worldwide, in peace and war. MSC exists to support the joint warfighter across the full spectrum of military operations. MSC provides on-time logistics, strategic sealift, as well as specialized missions anywhere in the world, in contested or uncontested environments.

We recruit transitioning military, merchant marines, maritime academy graduates, and skilled entry-level candidates to fill our maritime job opportunities. The MSC mission is big. So are the rewards for the CIVMARs who help us complete it.

National Geospatial-Intelligence Agency**Booth #91**

7500 Geoint Drive

NOAA is a US federal government agency committed to enriching lives through science. NOAA is staffed with approximately 321 active duty commissioned officers. A typical officer's career is spent in a variety of assignments that alternate between operational duty and land duty. NOAA Corps officers operate ships, fly aircraft, lead mobile

field parties, conduct diving operations, manage projects, and serve in staff positions throughout NOAA. If you're interested in a career that includes service, science, and adventure, you will find a unique opportunity in the NOAA Corps. Selected applicants train at the Coast Guard Academy, and are commissioned as Ensigns at the completion of the program.

Recruiter Identified Major(s): MT

International And Domestic Vessel Operators with Diverse Commercial and Government Shipping Expertise

Established in 1981, Seaward Services, Inc. (SSI), a subsidiary of Hornblower Corporation, is a full-service shipping, waterfront logistics and management company that specializes in the operation and maintenance of government and commercial vessels; including: high-speed craft, range craft, training craft, experimental craft, research vessels, cable-laying vessels, and unmanned surface and sub-surface vessels. The organization is led by seasoned maritime executives and management with many years of experience within commercial shipping, the U.S. Coast Guard, and U.S. Navy. SSI has distinguished itself in the industry as a reliable, safe, and effective maritime vessel owner and operator.

Seaward's niche expertise lies in high-speed, jet-powered shipping. Since 2001, the organization has crewed, operated, and maintained a wide variety of high-speed vessels in support of DoD contracts, including the: HST WestPac Express, USNS Guam, USNS Puerto Rico, FSF-1 Sea Fighter, HSC Alakai, and sea trials for the Independence-Variant LCS and Spearhead Class EPF's. Seaward has also operated traditional deep-water vessels for various DoD contracts such as the OSV Hercules out of Dutch Harbor and the O&M for the TSV's Prevail, Hugo, Hunter, and Narragansett which provided training support to the US Navy.

Shaver Transportation Company

Booth #47

4900 NW Front Avenue

Shaver is a regional tug and barge company with a fleet of fifteen tugs and twenty-two barges. Shaver is the oldest continuously operating family-owned tugboat company on the west coast. We focus our efforts on four lines of business: ship assist, bulk commodity transportation, harbor/marine services, and emergency response and rescue.

Shaver is founded on the basic principles of safety, quality, reliability, experience, and service. We are dedicated to the protection of life and the environment. Our reputation for success is built on operating a powerful fleet with experienced employees. Our depth of experience gives us unique knowledge to help with our customers' needs. Shaver continues to reinvest in our company to stay focused on the future needs of our customers and the growth of the Columbia Snake River System.

Recruiter Identified Major(s): FET, ME, MET

Siemens Industry, Building Technologies, Automation

We spend up to 90% of our lives in buildings, and we believe that everything people do in life deserves a perfect place to do it. In a world where our fundamental health, safety and wellbeing expectations have been deeply impacted with the anxiety of a new virus, buildings should offer a haven. Ideally, a perfect place to grow, learn and prosper.

While it's true today's buildings should be reliable, efficient and safe - these characteristics alone don't enable businesses and empower people the way a true smart building can. Adaptability is crucial. Smart buildings interact with people, systems and external elements around them. They learn from the past experiences and real time data input. They adapt to the needs of people and the businesses within them by increasing comfort, efficiency, resiliency and safety.

Whatever the size of the building, it's purpose or application: Our comprehensive building automation and control systems portfolio allows us to perfectly tailor an automation and control solution to each project's individual needs. Openness and flexibility are the bottom line for all of our systems. As a result, open communication protocols enable

their easy integration with other systems and the option to modernize later on. Combining electrical and HVAC systems in a comprehensive, multiple discipline approach and designing for reliability - this is how perfect places become a reality.

833-997-7829, r.ellis@staxengineering.com

Recruiter Identified Major(s): MT, MET, ME, FET

STAX Engineering provides mobile emissions capture and control technology for ports, shipping terminals, and fleet operators. Their patented exhaust capture system attaches to at-berth vessels without any modifications, even in the most congested ports. Once the exhaust is captured, it is filtered, removing 99% of particulate matter (PM) and 95% of oxides of nitrogen (NOx). Importantly, STAX's technology does not produce hazardous waste when processing vessel emissions. This system enables all vessels, including tankers, to comply with the highest air quality standards while operating safely.

SubCom, LLC

Recruiter Identified Major(s): ALL MAJORS

Our campus is located in New York City, one of the most exciting cities for the entertainment, the financial district, greatest global marketing center of the world and most importantly essential hub for the maritime industry. Payscale.com rates SUNY Maritime College as one of the best colleges for return on investment. SUNY Maritime College boasts one of the lowest tuitions of any college while yielding one of the highest mean salaries of graduates among all colleges and universities.

The Master of Science in Shipping & Logistics is a logistics, supply-chain, and inter-modal program. The Shipping & Logistics degree is a 34-credit program that prepares students for advanced positions within the maritime industry, as well as in logistics and supply chain management positions. The program may be completed online, on campus or a blend of the two formats, to make it fit with a variety of schedules and learning preferences. Students may choose to earn additional certificates in charter parties or supply chain management, as well as a U.S. Coast Guard third mate's unlimited license.

Walnut Creek, CA 94597
www.transmarine.com

- Leslie Clements, Managing Director
925-719-8598, leslie.clements@transmarine.com

Recruiter Identified Major(s): IBL, ISS, MT

Since 1938, leading global shipping companies have turned to Transmarine to meticulously manage their port arrivals, departures, and in-port operations with white-glove service at all major ports of call along the U.S. Gulf Coast, West Coast, and Hawaii.

Our shipping agency services put veteran vessel management talent on board our clients' ships, where they're backed by our experienced operations managers, documentation specialists, accounting specialists, and executive team. Together, we care for fleet, cargo, and crew while ensuring the efficiency of port operations.

The safety, seaworthiness, and success of our clients' fleets are personal to us, so we participate actively in local harbor safety committees. We're also the longest active U.S. member of BIMCO, certified by ASBA, and have been awarded the FONASBA Quality Standard.

From clearances and disbursements to terminal operations, port services, and resupply, we do whatever it takes to keep the fleet safe, shipshape, and on schedule.

Lighting up people's lives, powering a better way forward. It's more than just a slogan at Vistra. It's our purpose. As one of the country's leading integrated retail electricity and power generation companies, Vistra's success is built on four core principles: We do business the right way, we work as a team, we compete to win, and we care about our key stakeholders. These principles guide every decision at Vistra and have built a culture where every team member can succeed.

Vistra's generation fleet includes a diverse portfolio of natural gas, nuclear, coal, solar, and battery energy storage systems. We power 39,000 MW across 12 states, with a focus on sustainability and an eye toward the future. Vistra is leading the clean energy transition with the world's largest battery, new solar facilities, and another 7,300 MW of zero-carbon electricity in the pipeline.

As a company, Vistra celebrates what makes you unique. We embrace diversity, equity, and inclusion. We're invested in the communities we serve and take our roles as corporate citizens seriously.

If you're guided by these same principles, we hope you'll consider joining us to power a better way forward.

Washington State Department of Transportation (WSDOT) is a multimodal organization with a global reputation for excellence! Our dedicated workforce is responsible to plan, design, build, and operate an integrated transportation system that safely and efficiently moves people and goods throughout the state. In addition to maintaining over 18,000 lane miles of state highway and 4,100 bridges, WSDOT manages the world's longest floating bridge, executes an award-winning Active Transportation Plan, holds a record for the world's widest tunneling project, and operates the largest ferry system in the nation!

The Washington State Ferry (WSF) system is essential to Washington's transportation network, linking communities on both sides of Puget Sound and the San Juan Islands. There are over 400 sailings each day on 10 ferry routes. WSF transports nearly 17 million passengers a year and has more than 1,800 employees. Employees perform a variety of duties on vessels, in terminals, at the maintenance facility, and at the Seattle headquarters.

Recruiter Identified Major(s): ALL MAJORS

Founded in Norway in 1861, Wilhelmsen is now a comprehensive global maritime group providing essential products and services to the merchant fleet, along with supplying crew and technical management to the largest and most complex vessels ever to sail. Committed to shaping the maritime industry, we also seek to develop new opportunities and collaborations in renewables, zero-emission shipping, and marine digitalization. Supporting a diverse and inclusive workplace, with thousands of colleagues across more than 70 countries, we take innovation, sustainability and unparalleled customer experiences one step further.

Recruiter Identified Major(s): MT, MET, ME

Young Brothers (YB) is Hawai'i's foremost interisland freight handling and transportation company. We serve individuals and businesses alike, moving goods by barge among the Hawaiian Islands. We are the only regularly scheduled common carrier authorized by the State of Hawaii to transport your goods over water from one island to another.

We can handle almost any shipment. Our fleet of eight barges has a combined capacity of over 60,000 tons, and our equipment can accommodate a range of capacity needs. From food and other refrigerated cargo, to building materials, equipment, and cars, we have a solution for every type of cargo.

We offer fast, frequent, and reliable service to the following ports: Nāwiliwili on Kaua'i, Kahului on Maui, Kaunakakai on Moloka'i, Kaunapau on Lāna'i, Honolulu on O'ahu, and Hilo and Kawaihae on the Island of Hawai'i. Most routes are serviced at least twice a week by overnight sailings.

From reservation to pick up, our team of approximately 360 employees works day and night to move your goods quickly, securely, and seamlessly across the Hawaiian Islands. That's what makes Young Brothers your neighbor island partner.

Thank You!
