2025 Spring Career Fair Participants

32 Points Manning

Booth #19

5801 Lowell Street NE, Unit 26B
Albuquerque, NM 87111
www.32pointsmanning.com

- Marcus McNeill, Owner/Manager, CEO
818-481-3311, marcus@32pointsmanning.com,
- Scott Walker, Recruiter, Director of Engineering

Recruiter Identified Major(s): MET, MT

We represent over 100 different U.S. companies across all sectors with US Flagged Jones Act vessels working in domestic and foreign waters worldwide. These companies pay us to locate and vet the very best mariners to work on their vessels and in shipyards. We do not charge you any fees to join our database. You gain access to all of our jobs and services. We keep you updated on the latest from the NMC and offer career guidance from people who have been in your shoes. Instead of us fitting you into one particular job, we have access to a wide variety of jobs to find exactly what you want. Even when you already have a job, you can keep your finger on the pulse of the market. You always have access to what you need, and someone watching out for you.

ABM Engineering

Booth #66

600 Harrison Street, Suite 600
San Francisco, CA 94107

669-302-6014, jkuitert@airtreatment.com

Recruiter Identified Major(s): ME, FET

Air Treatment Corporation is the leading HVAC & R manufacturer's representative serving California, Nevada, Hawaii, Oregon and Guam since 1982.

For 40 years, ATC has partnered with first-rate equipment manufacturers to deliver expert, sustainability-driven equipment, factory-certified service, and end-to-end support within our wide distribution network.

We serve numerous markets, including cold storage and food processing, data centers, higher education, and sports areas. Our divisions include HVAC equipment, refrigeration, OEM service, and parts.

What makes us different? We've shaped how businesses, contractors, and industry professionals work with HVAC & R manufacturer representatives. Our team of experts includes sales engineers, inside support teams, and certified technicians that use their industry knowledge and tools to be your reliable specialists in energy and water-saving solutions.

We connect manufacturers, customers, contractors, builders, and designers through an in-depth understanding of HVAC & R equipment, personalized customer service, and relationship building that delivers long-term business results.

Find out why the industry trusts us.

Alameda County - General Services Agency

1401 Lakeside Drive, 10th Floor
Oakland, CA 94612

<https://gsa.acgov.org/>

- Carol Brookens, Human Resources Officer
510-208-9746, carol.brookens2@acgov.org

Recruiter Identified Major(s): IBL, FET, ME

The General Services Agency (GSA) serves Alameda County with the innovations and services that make our community strong. As a General Services Agency, we are committed to serving the County agencies and departments who serve the public.

We provide the County with:

- Safe, clean and energy-efficient workspaces
- One of the greenest vehicle fleets in the nation
- Logistics services, like parking and messengers
- Supplies and purchases
- Outreach to outside businesses
- Safety training and support

Booth #1

Booth #4

- Emergency logistics support
- Long-range capital planning
- Maintenance and improvements

From the truck drivers in our Property & Salvage warehouse to the contract compliance officers in our Office of Acquisition Policy, from our janitors, plumbers, painters and gardeners to our senior project managers, we provide the services that keep the County working.

Many of our staff have served GSA for 20-30 years. As a service agency, we don't work in the spotlight. As people devoted to service, we take pride in helping others.

Houston, TX 77002

www.calpine.com

Heather D. Humalainen Randall, Senior Director - Human Resources
713-315-9315, Heather.humalainen@calpine.com

Recruiter Identified Major(s): ME, FET

Calpine Corporation is America's largest generator of electricity from natural gas and geothermal resources with operations in competitive power markets. Its fleet of 77 power plants in operation represents over 27,000 megawatts of generation capacity. Through wholesale power operations and its retail businesses, Calpine serves customers in 22 states and Canada. Its clean, efficient, modern and flexible fleet uses advanced technologies to generate power in a low-carbon and environmentally responsible manner.

The company was established on the premise that a strong commitment to the environment is inextricably linked to excellence in power generation and corporate responsibility. Since its founding in 1984, Calpine has led the power industry in its unwavering commitment to environmental stewardship. In addition, its renewable geothermal plants use steam generated deep below the earth's surface to produce clean, renewable electricity.

- Farrah Salinas, Talent Acquisition & HR Manager
209-404-1475, fsalinas@criticalarccx.com
- Maureen Harder

Booth #64

Recruiter Identified Major(s): ME

Founded in 2014, CriticalArc is a BCxA Certified Commissioning Firm based in California that thrives on large-scale projects in excess of \$1B in construction volume.

CriticalArc was formed because we saw a need for a detail-oriented process run by technical people. Commissioning buildings had become a cumbersome process filled with outdated modalities. We have improved the transition from the construction of a building to the operations and use of a facility.

To do this, we have done away with paper by employing electronic technology and cloud-based interfaces that increase collaboration, lower costs and maximize transparency by allowing building owners and commissioning team members to access test results, deficiencies and key performance indicators in real-time. Our approach to commissioning is tailored for busy construction team members, executives and managers, providing useful project metrics and leading indicators, all while saving cost.

Our primary market segments are aviation and data center projects, as well as other large, challenging projects and program level undertakings. Our vision is to become the premiere commissioning provider in the nation.

Based in Seattle, Washington, Foss offers a complete range of maritime transportation and logistics services. Whether it's solving transportation challenges in remote parts of the world or efficiently handling everyday harbor jobs, Foss prides itself on always offering customers safe and innovative solutions.

For more than a century, Foss Maritime has set the standard for marine transportation with leading edge technology, engineering, and shipbuilding. Combining global reach with local expertise, Foss is recognized for its state-of-the-art fleet, experienced and dedicated crews, knowledgeable customer service staff, and world-class engineers.

Along with our independent subsidiaries the company employs thousands of people throughout the United States. With hundreds of tugs and barges we provide harbor services and transportation operations in all major U.S. West Coast ports – including the Columbia and Snake River system. Internationally, Foss supports customers across the Pacific Rim, in Europe, South America and the Arctic.

Every day, our tugboats, barges and people are at work helping our customers succeed in a competitive and challenging market. With a company-wide commitment to safety and the environment, our seasoned crews and staff provide our customers with safe, reliable service to get the job done right.

In addition to transportation and maritime logistics, Foss also provides engineering and shipbuilding services. The company's mobile response repair service can send a team of maritime engineers to service vessels anywhere in North America within 24 hours. With an expert marine engineering group, Foss helps customers throughout the entire life cycle of a project, which includes analyzing vessel and equipment requirements for a specific job, to designing a new build or vessel modification through to production and proper outfitting of the vessel.

McAllister Towing: Unsurpassed for 160 Years

We operate a fleet of more than 60 tugboats, crew boats, and barges in 13 locations along the U.S. East Coast from Eastport, ME to San Juan, PR. The fleet includes 38 Z-Drive/tractor tugs and 20-plus vessels involved in coastal towing with more than a combined 270,000 H.P. In each port, McAllister is engaged in ship docking (servicing more than 1,000 steamship companies), general harbor towing, coastal towing, windfarm support, and bulk transportation. We are currently building two new tractor tugs at Washburn & Doughty, which will add more than 13,000 hp to our fleet. These assets and our talented teams will ensure that we continue the McAllister family tradition of being an innovative force in marine transportation.

Military Sealift Command

Booth #10 & 11

CIVMAR Support Center

9276 3rd Avenue, Bldg LP-26

Norfolk, VA 23511-2419

www.sealiftcommand.com

- Daniel Melena, Recruiter
danielm@sealiftcommand.com

Recruiter Identified Major(s): IBL, MT, MET, ME

The U.S. Navy's Military Sealift Command is the premier provider of ocean transportation to the Department of Defense. The Command operates approximately 125 civilian-crewed ships that replenish U.S. Navy ships, conduct specialized missions, strategically preposition combat cargo at sea around the world and move military cargo and supplies used by deployed U.S. forces and coalition partners.

While we do play a critical role in support of our nation's defense, our employees are not active duty members of the military. MSC civil service mariners (CIVMARs), the largest segment of our global workforce, are federal civil service employees.

All CIVMARs are employed by the Navy to serve MSC onboard naval auxiliaries and hybrid-manned warships worldwide, in peace and war. MSC exists to support the joint warfighter across the full spectrum of military operations. MSC provides on-time logistics, strategic sealift, as well as specialized missions anywhere in the world, in contested or uncontested environments.

We recruit transitioning military, merchant marines, maritime academy graduates, and skilled entry-level candidates to fill our maritime job opportunities. The MSC mission is big. So are the rewards for the CIVMARs who help us complete it.

National Cargo Bureau (NCB)

Booth #49

180 Maiden Lane, Suite 903

New York, NY 10038

www.natcargo.org

- Capt. Noapose Fotu, Senior Surveyor - Port of San Francisco
510-331-9177, fotu@natcargo.org
- Robert Harris, Deputy Chief Surveyor - Pacific Ports
206-900-6497, harris@natcargo.org

Recruiter Identified Major(s): IBL, MT, MET

National Cargo Bureau (NCB) was incorporated as a non-profit organization, with a mission of “Safety of Life and Cargo at Sea”, in May of 1952 and began its actual operation on November 19 of the same year. The Bureau was formed from the inspection divisions of the Board of Underwriters of New York and the Board of Marine Underwriters of San Francisco and now operates on a nationwide basis.

NCB was launched in 1952 after a series of maritime disasters demonstrated a need for uniform standards and regulations. Those disasters included the capsizing of grain ships due to shifting of cargoes, shipboard fires relating to wet cotton or metal turnings, and an ammonium nitrate ship explosion at Texas City, Texas in 1947.

Since inception, NCB’s role has grown in many areas. The U.S. Code of Federal Regulations (CFR) contains several references to NCB in Titles 7, 19, and 46 as well as in the Hazmat Regulations under Title 49. By assignment and under the authority of the United States Coast Guard, the certificates issued by National Cargo Bureau, may be accepted as prima facie evidence of compliance with the provisions of the Dangerous Cargo Act, bulk solid cargo transport regulations and the rules and regulations for Bulk Grain Cargo.

NCB surveys are performed at the request of industry. If deficiencies are noted during inspections, NCB works with the client to address them. NCB considers all surveys to be confidential and does not share information unless directed to do so by the party requesting the survey. NCB is not an enforcement agency.

NCB presently has 18 offices located nationwide, providing coverage for all major U.S. ports. These operations may be supplemented globally by trusted network partners vetted and approved by NCB.

Marine surveyors employed by NCB include licensed ex-mariners with broad experience in all manner of cargo and vessel surveys. Staff experience and expertise is enhanced and maintained by a robust internal training regimen.

NCB’s corporate management team has amassed over 200 years combined seafaring, marine survey, loss prevention and training experience with broad expertise in bulk, breakbulk, project and containerized cargo handling and transport, hazardous material regulatory requirements, cargo theft prevention and other related disciplines.

NCB conducts inspections and surveys that are incidental to the loading or discharging of ships as well as those considered integral to marine loss prevention and issues the appropriate certificates and/ or survey reports.

NCB attends the International Maritime Organization’s (IMO) Sub- Committee on Carriage of Cargoes and Containers (CCC –formerly DSC) committee in London each year to provide technical support for the U.S. delegation. NCB also supports the marine insurance market through representation on the American Institute of Marine Underwriters (AIMU) Marine Loss Prevention and Technical Services committees.

NCB regularly conducts Safety Inspections and investigations for several Flag Registries.

In June 2018 NCB acquired Exis Technologies, now rebranded as NCB Hazcheck. With over 35 years of operational experience, NCB Hazcheck is a global leader providing IT solutions for safe and compliant management of dangerous goods at sea. NCB Hazcheck provides regulatory compliance and safety systems to most of the worlds’

major shipping lines, ferry operators, ports and terminals, logistics operators, freight forwarders, government, and regulatory organizations worldwide. The Hazcheck System suite includes; Hazcheck Validate, to ensure accurate validation, stowage and segregation of declared dangerous goods. Hazcheck Detect offers an award winning dedicated cargo screening solution. It pinpoints misdeclared and undeclared dangerous cargoes from within a client's booking process. Hazcheck Inspect facilitates container cargo inspections and includes remote inspection capabilities. Finally, Hazcheck Learn introduces a complete e-learning system. It sets a new precedent and modern approach for online dangerous goods regulation-based training.

Thomasville, NC 27360

<https://www.odfl.com/>

- Sheri Frasinetti, Human Resources
Sheri.Frasinetti@odfl.com

Recruiter Identified Major(s): IBL

Old Dominion Freight Line, Inc. (NASDAQ: ODFL) is a less-than-truckload ("LTL"), union-free company providing premium service to all its customers. Founded in 1934 ODFL started out as a single truck running a 94-mile route in Virginia, over the last 80+ years we've led the way to become a national LTL freight leader and global transportation company. The values that drove our founders years ago still inspire us today. Whether it's on the road, on the docks,

in the office, or at one of our many celebrations, there's an attitude of sharing, caring and smiling. It's an attitude our customers & team members value & appreciate. One that makes us more than just a freight carrier. It makes us a family. A family that helps the world keep promises. OD has more than 25,000 employees across North America with 255+ service centers across the continental US. It's known for its unique family culture built by the "OD Family Spirit."

OD has been recognized by several organizations as an employer of choice; in 2023 Forbes named OD one of America's Best Large Employers; and OD made Newsweek's list of America's Greatest Workplaces for Parents & Families, as well as America's Most Trustworthy Companies. The Women in Trucking Association named OD one of its "Top Companies for Women to Work for in Transportation."

Recruiter Identified Major(s): FET, ME

We are commissioning agents, quality engineers, and commissioning agents servicing both greenfield and existing live environment data center facilities. For all scales of data center facilities, we work as an integral part of your team through all lifecycle stages – design, build, operate, and refresh.

QA / QC

We perform all levels of Quality Assurance and Quality Control from design reviews to final inspections. As your allied partner, we help you identify problems early so risk of schedule non-formance and data center downtime is mitigated.

Commissioning

We provide the functional testing of mechanical, electrical, and operational control systems, ensuring that they work as intended and as an integrated system. Our services also include comprehensive design reviews to validate the systems' design aligns with the original intent.

Commissioning Management

The commissioning management team provides hands-on construction management, coordinating and collaborating with MEP contractors, trades and vendors from inception through completion and post-occupancy. Iconicx has the capacity and experience to deliver on time and within budget.

808-260-0437, ksison@hms-seaward.com
- Rebecca Burns, Operations Coordinator
930-228-0809, rburns@hms-seaward.com

Recruiter Identified Major(s): MT

Established in 1981, Seaward Services, Inc. (SSI), a subsidiary of Hornblower Corporation, is a full-service shipping, waterfront logistics and management company that specializes in the operation and maintenance of government and

commercial vessels; including: high-speed craft, range craft, training craft, experimental craft, research vessels, cable-laying vessels, and unmanned surface and sub-surface vessels. The organization is led by seasoned maritime executives and management with many years of experience within commercial shipping, the U.S. Coast Guard, and U.S. Navy. SSI has distinguished itself in the industry as a reliable, safe, and effective maritime vessel owner and operator.

Seaward's niche expertise lies in high-speed, jet-powered shipping. Since 2001, the organization has crewed, operated, and maintained a wide variety of high-speed vessels in support of DoD contracts, including the: HST WestPac Express, USNS Guam, USNS Puerto Rico, FSF-1 Sea Fighter, HSC Alakai, and sea trials for the Independence-Variant LCS and Spearhead Class EPF's. Seaward has also operated traditional deep-water vessels for various DoD contracts such as the OSV Hercules out of Dutch Harbor and the O&M for the TSV's Prevail, Hugo, Hunter, and Narragansett which provided training support to the US Navy.

Siemens Industry, Building Technologies, Automation

We spend up to 90% of our lives in buildings, and we believe that everything people do in life deserves a perfect place to do it. In a world where our fundamental health, safety and wellbeing expectations have been deeply impacted with the anxiety of a new virus, buildings should offer a haven. Ideally, a perfect place to grow, learn and prosper.

While it's true today's buildings should be reliable, efficient and safe - these characteristics alone don't enable businesses and empower people the way a true smart building can. Adaptability is crucial. Smart buildings interact with people, systems and external elements around them. They learn from the past experiences and real time data input. They adapt to the needs of people and the businesses within them by increasing comfort, efficiency, resiliency and safety.

Whatever the size of the building, it's purpose or application: Our comprehensive building automation and control systems portfolio allows us to perfectly tailor an automation and control solution to each project's individual needs. Openness and flexibility are the bottom line for all of our systems. As a result, open communication protocols enable their easy integration with other systems and the option to modernize later on. Combining electrical and HVAC systems in a comprehensive, multiple discipline approach and designing for reliability - this is how perfect places become a reality.

We lead in our industry by understanding yours.

Technically, we're in the facility services industry – but we believe we're really in the relationship industry. Developing long-lasting partnerships means offering more than unmatched management expertise. It means having a deep knowledge of your business and a thorough understanding of your goals. This unique combination enables us to customize our services and tailor our approach to meet your goals and objectives.

Excellence without exception

At UG2, our vision is to set the new standard of excellence – and create the next generation of leadership in the facility services industry. By working as an extension of your team, we are committed to developing the strongest customer relationships and the highest service delivery benchmarks in the marketplace.

Everything we do is meant to:

Set a new standard of excellence in facility services with innovative solutions, pristine environments, and a passion for customer service

Support efforts to become the facilities “partner of choice” for the most demanding and prestigious customers in North America

Create the next generation of facility services leaders by hiring customer-centric PHDs (Passionate, Hardworking, Dedicated) people

Forge long-lasting partnerships with our customers centered around helping them become successful leaders in their markets

Ensure we are the industry leader in innovation, technology, safety and sustainability

University National Oceanographic Laboratory Systems (UNOLS)

Booth #39

1501 NE Boat Street

Seattle, WA 98195

www.unols.org

- Meegan Corcoran, UNOLS Crewing Support Manager
360-929-9034, meegan@unols.org

Recruiter Identified Major(s): OCN, MET, MET, MT

UNOLS oversees the operations of 17 research vessels which are operated by 14 institutions of higher learning within the United States. The fleet is known as the U.S. Academic Research Fleet (ARF) and is the largest research vessel fleet in the world. The ARF is funded by the National Science Foundation and/or the Office of Naval Research and conduct oceanographic science throughout the world's oceans. In addition to the research vessels, UNOLS hosts various submersible vehicles such as ALVIN, JASON, and SENTRY. The work aboard vessels of the ARF is dynamic, exciting, and rewarding.

Vane Line Bunkering LLC

Lighting up people's lives, powering a better way forward. It's more than just a slogan at Vistra. It's our purpose. As one of the country's leading integrated retail electricity and power generation companies, Vistra's success is built on four core principles: We do business the right way, we work as a team, we compete to win, and we care about our key stakeholders. These principles guide every decision at Vistra and have built a culture where every team member can succeed.

Vistra's generation fleet includes a diverse portfolio of natural gas, nuclear, coal, solar, and battery energy storage systems. We power 39,000 MW across 12 states, with a focus on sustainability and an eye toward the future. Vistra is leading the clean energy transition with the world's largest battery, new solar facilities, and another 7,300 MW of zero-carbon electricity in the pipeline.

As a company, Vistra celebrates what makes you unique. We embrace diversity, equity, and inclusion. We're invested in the communities we serve and take our roles as corporate citizens seriously.

If you're guided by these same principles, we hope you'll consider joining us to power a better way forward.

Washington State Ferries

Booth #84

- Jay Mooney, Port Captain
206-264-3549, jay.mooney@wsdot.wa.gov

Recruiter Identified Major(s): MT

Washington State Department of Transportation (WSDOT) is a multimodal organization with a global reputation for excellence! Our dedicated workforce is responsible to plan, design, build, and operate an integrated transportation system that safely and efficiently moves people and goods throughout the state. In addition to maintaining over 18,000 lane miles of state highway and 4,100 bridges, WSDOT manages the world's longest floating bridge, executes an award-winning Active Transportation Plan, holds a record for the world's widest tunneling project, and operates the largest ferry system in the nation!

The Washington State Ferry (WSF) system is essential to Washington's transportation network, linking communities on both sides of Puget Sound and the San Juan Islands. There are over 400 sailings each day on 10 ferry routes. WSF transports nearly 17 million passengers a year and has more than 1,800 employees. Employees perform a variety of duties on vessels, in terminals, at the maintenance facility, and at the Seattle headquarters.

Recruiter Identified Major(s): MT, MET

Young Brothers (YB) is Hawai'i's foremost interisland freight handling and transportation company. We serve individuals and businesses alike, moving goods by barge among the Hawaiian Islands. We are the only regularly scheduled common carrier authorized by the State of Hawaii to transport your goods over water from one island to another.

We can handle almost any shipment. Our fleet of eight barges has a combined capacity of over 60,000 tons, and our equipment can accommodate a range of capacity needs. From food and other refrigerated cargo, to building materials, equipment, and cars, we have a solution for every type of cargo.

We offer fast, frequent, and reliable service to the following ports: Nāwiliwili on Kaua‘i, Kahului on Maui, Kaunakakai on Moloka‘i, Kaunapali on Lāna‘i, Honolulu on O‘ahu, and Hilo and Kawaihae on the Island of Hawai‘i. Most routes are serviced at least twice a week by overnight sailings.

From reservation to pick-up, our team of approximately 360 employees works day and night to move your goods quickly, securely, and seamlessly across the Hawaiian Islands. That’s what makes Young Brothers your neighbor island partner.
