DATE: 10/7/2024

SUBJECT: IBL Curriculum Roadmap Revision

GE COMMITTEE SUMMARY

The General Education Committee met on Tuesday, October 1, 2024, to review the ISS department's proposal to change their curriculum roadmap in compliance with EO 1100 (rev. 2024), specifically addressing the removal of one lower division Area C2 course and the removal of the Area E requirement

In attendance were voting committee members Sarah Senk (Chair), Laurie Borchard, Chris Chiego, Cynthia Trevisan, and Aparna Sinha, as well as nonvoting members, Mike Strange, Tom Oppenheim, Christine Isakson, Shari Smiljanic-Villa, and Graham Benton.

There are no changes proposed to any of the General Education courses, but the committee reviewed the curriculum to confirm that the proposed changes – eliminating one lower division Humanities course and removing the Area E classification from an existing major course (and updating the proposal to include the new GE subject codes) – make the roadmap compliant with the latest revision to EO 1100, effective in Fall 2025.
