APPENDIX C: IDC WAIVER FORM

CSU MARITIME ACADEMY RESEARCH AND INNOVATION OFFICE (RIO) REQUEST FOR WAIVER OF INDIRECT COST REQUIREMENT

The current negotiated federal indirect cost rate for Cal Maritime as of 07/01/22 is 47% of modified total direct costs. Different funding agencies may have indirect cost rates other than the federally negotiated rates. It is Cal Maritime's policy that the maximum indirect rate (as defined in writing by the funding agency) should be used on all proposals submitted to the Research and Innovation Office. If the funding agency has a published policy that limits the indirect cost to a percentage below Cal Maritime's federal maximum, please indicate so below and provide written documentation (usually a copy of the funding source's written policies).

Requested Indirect Cost Rate:

Reason for exemption from the 47% federally negotiated Indirect Cost Rate:

Project falls under California AB20 (standard IDC rate of 35% MTDC) effective 7/1/23

Project falls under California CESU (standard IDC rate of 17.5% MTDC, or 10% for NRCS)

Project falls under off-campus rate 20.8%

Requested rate is the maximum allowed by the funder for this program (see attached documentation)

Other justification (attach any communication or documentation referenced herein):

APPENDIX D: SUBAWARD DETERMINATION

CSU Maritime Academy Contract and Procurement Subaward vs. Contract Determination Checklist

INSTRUCTIONS: To help make the determination, please first review the Subaward vs. Contract Guidance. Provide the general information and complete Sections 1 and 2 which describe the characteristics that may be present in Subaward and Contract relationships. The section with the greatest number of marked characteristics indicates the likely type of relationship. Maintain a copy of this form in the procurement file.

Requisition Number: _____ Entity Name: _____ Est. Cost: _____

Principal Investigator (PI): _____ RIO Project Administrator: _____

Summary of the Entity and Scope of Work: (PI or Project Administrator to provide)

Section 1 - Subaward

Description: Subaward is for the entity to carry out a public purpose of support or stimulation authorized by a law of the United States instead of acquiring (by purchase, lease, or barter) property or services for the direct benefit or use of the University. A subrecipient relationship may have one or more of the following characteristics:

- Carry out a substantive, programmatic work or an important or significant portion of the research/grant program or project
- The research program or project is within the research objectives of the entity
- Has principal investigator been identified and functions as a “Co-Investigator” in the grant proposal and award
- Has its performance measured in relation to whether objectives of the project or program were met
- Is responsible for adherence to applicable program requirements specified in the award
- In accordance with its subaward, uses the prime award funding to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the University

Section 2 - Contract

Description: Contract is to acquire (by purchase, lease, or barter) property or services for the direct benefit or use of the University. A contractor relationship may have one or more of the following characteristics:

- Provides the goods and services within normal business operations
- Provides similar goods or service to many different purchasers
- Is not significantly participated in the design of the research itself or in the proposal development
- Provides goods or services that are ancillary to the operation of the program or project
- Is not directly responsible to the sponsor for the research or for determining research results
- Markets its service to range of customers, including those in non-academic fields

The substance of the relationship should be given greater consideration than the form of agreement between the University and the outside entity.

FINAL DETERMINATION: (Check One)

SUBAWARD

CONTRACT

Prepared By: _____

Title: _____

If “Subaward” is the final determination and the relationship is not a purchase of goods or services, CSU Procurement Requirement is not applicable and therefore additional quotes or formal competitive solicitation is not required.

If “Contract” is the final determination, the following CSU Sponsored Project Procurement Requirements shall be followed:

For contracts <\$10,000, no formal quote required (per micro-purchase threshold at 41 U.S. Code 1902)

For contracts from \$10,000 to \$50,000, 1 quote that is fair and reasonable is required

For contracts from \$50,000 to under \$100,000, 3 quotes are required unless a sole source justification is approved

For contracts >\$100,000, a formal competitive solicitation is required unless a sole source justification is approved
